Prima della pulizia / Before cleaning

Dopo la pulizia / After cleaning

EasyClean 500

EasyClean500 nuovo sistema di pulizia per la pelle, cuoio, camoscio, laminati, cavallino, legno, termo garza su ricami, ...

Non utilizza liquidi o solventi lasciando inalterate caratteristiche e misure delle vostre lavorazioni dopo il taglio laser.

Il sistema Clean500 si basa sull'innovativo getto di microsfere per la pulizia in profondità delle vostre lavorazioni laserate e ricamate.

EasyClean500 new cleaning system for leather, suede, laminate materials, wood, thermo gauze on embroidery, ... It does not use liquids or solvents leaving unaltered features and measurements of your machining after laser cutting. The Clean500 system is based on the innovative microspheres jet for deep cleaning after cutting, engraving and embroidery.
